

TABLE OF CONTENTS

• KEYNOTES

1. Kilamba building foundation design.....	1
<i>Pinto, P.S.S.</i>	
2. Risk associated with geotechnical engineering.....	11
<i>Ivan Vanicek</i>	
3. Application of Geotechnical LRFD for Ground Improvement by Deep Mixing Method in Korea. 17	
<i>Jang, Y. S., Park, J. M. & Yang, T. S.</i>	
4. Maximum and minimum void ratios and median grain size of granular soils: their importance and correlations with material properties.....	37
<i>Das, B.M., Sivakugan, N., Atalar, C..</i>	
5. Purpose and function of sonic cross-hole tests.....	55
<i>Toğrol, E.</i>	
6. Geotechnical issues of megaprojects on problematical soil in Kazakhstan.....	67
<i>Zhussupbekov, A.Zh., Lukpanov, L.E</i>	
7. Real-time use of observational method in geotechnical engineering.....	75
<i>Cinicioglu, S.F.</i>	

• FOUNDATIONS AND SLOPE STABILITY

8. Lateral displacement of temporary retaining wall as jet grouting pile installation in Singapore.....	87
<i>Shin, E.C., Park, Y.J. & Park, J.J</i>	
9. Study of permeability and unconfined compressive strength of GGBS-Cement-Lime mixtures modified by further Bentonite.....	95
<i>Talefirouz, D., Cokca, E.</i>	
10. Junction Properties Interpretation of Textile Geogrids Using Multi-Junction Clamp.....	103
<i>Han-Yong Jeon, Yuan Chun Jin, Jungjo Yuu</i>	
11. A Case study on the excessive displacement of rear face under construction road tunnel in Korea.....	109
<i>Nagyoungh KIM, Taesun YANG & Sangbaik WOO</i>	
12. Numerical analysis of embankment reinforced by geosynthetics on sabkha soil.....	117
<i>Benmebarek N. Berrabah, F. & Benmebarek S.</i>	
13. Effect of surrounding soil on elasto-plastic dynamic response of underground structures to near-fault ground motions.....	125
<i>Hacıfendioğlu, K. & Saraçoğlu, G.</i>	

14. Numerical analysis of cross-walls effectiveness in reducing ground movements associated to deep excavations.....	133
<i>Erbì, E. & Soccodato, F. M.</i>	
15. Parametric studies of buried pipes using finite element analysis.....	141
<i>Bildik, S., Laman M. & Suleiman M.T.</i>	
16. Settlement observations of industrial structures founded on soft soils: case of the harbour zone of Bejaia city.....	149
<i>Bahar, R., Khiatine M., Belhassani O. & Sadaoui O.</i>	
17. Load-displacement behavior of passive piles in cohesive soils.....	157
<i>Kahyaoğlu, M.R., İmançlı, G. & Kayalar, A.Ş.</i>	
18. Determination of subgrade reaction modulus of two layered soil.....	165
<i>Ziaie Moayed, R., & Ali Bolandi, M.</i>	
19. Shear Strength Behavior of Sand Stabilized with Cement.....	171
<i>Naeini, S, A., Malek Avrzamani, H.</i>	
20. Analysis of ring footings using field test results.....	179
<i>Demir, A., Örnek, M., Laman, M. & Yıldız, A.</i>	
21. Laboratory investigation of the uplift behavior of belled piles in reinforced sand.....	185
<i>Javadi, S., Moghaddas Tafreshi, N.</i>	
22. Value of partial factors for EC 7 slope stability analysis: solved “mystery”?.....	193
<i>Papić, Dimitrievski, & Prolović</i>	
23. Effect of reinforcement type and number on the load-settlement behavior of strip footings.....	199
<i>Cicek, E., Guler E. & Yetimoglu T.</i>	
24. Numerical back-analysis of a deep excavation consisting of multipropped retaining wall.....	205
<i>Houhou, M. N., Emeriault, F. & Kastner, R</i>	
25. Settlement analysis of Shahid Kalantari highway embankment and assessment of the effect of geotextile reinforcement layer.....	213
<i>R. Emami, K. Badv</i>	
26. Slope stability analysis on river embankments constructed by improved dredged clay.....	221
<i>Kumara, J.J.</i>	
27. Optimization of piled-raft foundation compound system by evaluation of the effect of pile length variation on performance this system.....	227
<i>Amir Mahmoudzadeh, Heydar Dashti Naserabadi</i>	
28. Experimental investigation on behavior of footings on contaminated deltaic soils.....	235
<i>Shahien, M. & Farouk A.</i>	
29. Dynamic Behavior of Geogrid Reinforced Segmental Block Walls under Earthquake Loads.....	245
<i>Guler E., Alexiew D., & Basbug E</i>	
30. Deep excavation and stabilization of excavation walls of central branch of KarAfarin bank.....	253
<i>Rajabi, M.Sh., Nikookar, M., & Kalantary, F.</i>	

31. Experimental investigation of stress behavior of square footings on the sandy and clayey soils.....	261
<i>Bağrıaçık, B., Laman, M. & Demir, A.</i>	
32. Performance of Piles in Liquefiable Soils using Numerical Analysis.....	271
<i>Jiryaei Sharahi, M.</i>	
33. Nonlinear analysis of laterally loaded piles.....	279
<i>Ejjaaouani, H. & Shakhirev, V</i>	
34. Comparison of load tests done on stone columns and rammed aggregate piers.....	285
<i>Kurt, E., & Teymur B.</i>	
35. Influence of urban planning over the effective utilization of retaining structures.....	291
<i>Hamova M., Zayakova Hr.</i>	
36. An experimental study on the performance of eccentrically loaded footings on cohesionless soil reinforced with nonsymmetrical geogrid layers	297
<i>Gel, A.C., Akbas S.O. & Anil O.</i>	
37. A study on the improvement of connection for segment tunnel lining using prestressed steel cable.....	305
<i>Sang-Joon, Ma., Dong-Min, KimB. & Hujeong Gil.</i>	

• **EARTHQUAKE GEOTECHNICAL ENGINEERING**

38. Soil improvement applications using reinforced granular fills on earthquake zones.....	313
<i>Yalcin Dayioglu, A., Incecik, M.</i>	
39. Recent development of quantitative determination of kinematic hardening sub-yield surface limits.....	321
<i>Mukabi, J.N.</i>	
40. Influence of soil conditions on stochastic response of dams to spatially varying ground motions.....	331
<i>Haciefendioğlu, K., Saracoğlu G.</i>	
41. The influences of a liquid storage tanks and soil characteristics under seismic loads.....	339
<i>Naeini, S.A, Valaei, A, Hossen Zade, M.</i>	
42. Earthquake Hazard of the Historical Peninsula of Istanbul.....	347
<i>Gökçe Çiçek İnce</i>	
43. A Model Study on Earthquake Behaviour of Breakwaters	355
<i>Selçuk, M. E., Ozaydın, K., Berilgen, M.</i>	
44. Numerical Modeling of the Seismic Behavior of Pile Group in Soil Slopes.....	361
<i>Naeini, S, A., Hamidpourzare, M.</i>	
45. Excess pore water pressure generation under anisotropic conditions.....	369
<i>Ulamış, K., Yang, H.J., Norris, G.</i>	

46. Effects of soil-pile-structure interaction on seismic response of moment resisting buildings on soft soil.....	377
<i>Hokmabadi A.S., Fatahi B., Tabatabaiefar H.R., & Samali B</i>	
47. Pore Pressure Generation of Non plastic Silt-Sand Mixtures.....	385
<i>Karakan, E., Altun, S.</i>	
48. Likelihood estimation for ranking of attenuation equation.....	391
<i>Güllü, H.</i>	

• **SOIL CHARACTERISATION**

49. Monitoring and instrumentation of the barrette	399
<i>Koçak, B., Akçakal, Ö., Sezer, Y., Özerdoğan, B. & Durgunoğlu, T.</i>	
50. Evaluation of resilient modulus properties of Iraqi soil using standard laboratory test for load cyclic triaxial strength.....	411
<i>Ibrahim, S.F.</i>	
51. Use of lime and cement treated soils with rigid inclusions.....	419
<i>Okuy, U.S., & Dias, D.</i>	
52. Effect of sand mixing on consolidation characteristics of Kala Shah Kaku campus UET, Lahore.....	425
<i>Sohail, S. & Aadil, N.</i>	
53. Settlement of lime treated sand bentonite mixtures.....	431
<i>İncesu, A.N., & Teymur B.</i>	
54. Effect of the sand layer thickness on the CBR values of two layered subgrade	437
<i>Moayed, R.Z., Allahyari, F. & Nazari, M</i>	
55. Geotechnical characteristics of granular pumice soils in Nevşehir region.....	447
<i>Yıldız, M., & Soğancı A.S.</i>	
56. Effects of fibre reinforcement in the shrinkage behaviour of compacted clay.....	455
<i>Ekinci, A., Ferreira, P.M.V.</i>	
57. Experimental study on shear resistance of Babolsar sand under anisotropic consolidation.....	463
<i>Jafarian, Y., Ghorbani, A., & Salamatpoor, S.</i>	
58. The geotechnical improvement of Talesh peat soil with cement.....	471
<i>Nikookar, M., Karimi pashaki, M., Nikookar, H. & Arabani, M.</i>	
59. Effect of granular waste glass on soil properties.....	479
<i>Başarı E.</i>	
60. Analysis of the time–shrinkage evolution for an expansive clayey soil.....	485
<i>Ejjaouani, H., Magnan, J.P., Shakhirev, V., & Bensallam, S.</i>	
61. Freeze-thaw behavior of fine grained soils subjected to surcharge loads.....	495
<i>Zaimoğlu, A.Ş., Hattatoğlu F., Akbulut, R.K. & Yetimoğlu T.</i>	
62. Improvement of a plastic clay soil	501
<i>Tarek, N. & Ninouh, A.</i>	

63. Effect of lime and gypsum on stabilization of high plasticity clay, Ankara, TURKEY.....	509
<i>Küçükali, Ö., Kılıç, R., Ulaş, K.</i>	
64. Evaluating undrained behavior of Babolsar sand using strain-controlled triaxial tests.....	517
<i>Jafarian, Y., Ghorbani, A., & Salamatpoor, S.</i>	
65. Evaluation of the relationships between Schmidt rebound number and strength of rocks.....	525
<i>Aksoy, H.S. & Yılmaz, U.</i>	
66. Effect of leaching on the dissolution of Al Doar gypseous soil.....	531
<i>Al-Saoudi, N., & Al- Banna, L.</i>	
67. Investigation of soil behavior in construction of rammed aggregate piers.....	539
<i>Ataman Ş., Berilgen, S.A., Akgüner C., & Berilgen M.M</i>	
68. Comprehensive geotechnical monitoring of the landslide processes and the retaining structures in the city of Sochi.....	547
<i>Matsiy S. I., & Lyubarsky N. N.</i>	
69. Soil abrasiveness for TBM along Tabriz metro tunnel line 2, Iran.....	553
<i>Asghari, E., Babazadeh, M. & Heydari, B.</i>	
70. Comparative study of soil water characteristic curve prediction methods.....	559
<i>Ahmadi-adli, M., Huvaj, N., Toker, N. K. & Kurkcu M.G.</i>	
71. Effect of RHA and RHP on Expansive soil.....	569
<i>Aziz, O. A. & Canakci H.</i>	
72. Use of In-situ Tests for Evaluation of Shear Modulus for Hard Clays in Sudan	575
<i>Ali E. M., Osman M. A. & Abuelhassan M. B.</i>	
73. Logistic Regression Approach for Estimating the Groutability of Granular Soils with Cement-Based Grouts.....	583
<i>Tekin, E., & Akbas, S.O.</i>	
74. Finite element modeling of stone columns in alluvial soils under an embankment	589
<i>Mirsalehi S. & Bilsel H.</i>	
75. Hydraulic conductivity of granular materials.....	597
<i>Al- Saoudi, N. & Hassan, K.</i>	
76. Small strain behavior of Northern İzmir (Turkey) soils.....	603
<i>Eskişar T. & Altun S.</i>	
77. An experimental examination of some factors affecting frost heave under freezing-thawing cycles.....	609
<i>Kamiloğlu, H. A., Yılmaz F. & Şadoğlu E.</i>	
78. Correlation between compressibility of gravely deposits and dynamic cone penetration tests.....	617
<i>Shahien, M. & Farouk, A.</i>	
79. Volume change measurement in triaxial testing of unsaturated soils.....	627
<i>Ahmadi-Naghadeh, R., & Toker, N. K.</i>	

80. Volume Change Behavior of Sand-bentonite Liner and the Effect of Cement Enhancement	635
<i>Iravanian, A., Bilsel, H. & Eren, Ö.</i>	
81. A study on the suction characteristics of compacted zeolite-bentonite mixtures.....	643
<i>Durukan, S., & Yukselen-Aksoy, Y.</i>	
82. A Comprehensive soil characteristics study and finite element modeling of soil-structure behavior in Tuzla Area.....	649
<i>Lakayan, D. & Bilsel, H.</i>	
• NEW METHODS IN GEOTECHNICAL ENGINEERING	
83. Engineering properties of various graded medium to fine sand grouted with Ultrafin 12 cement.....	657
<i>Mollamahmutoğlu, M., Avci, E. & Özarıslan, M.</i>	
84. Numerical evaluation of the bearing capacity factor N_{\square} ring footings for associated soils.....	665
<i>Benmebarek S., Remadna M.S., Benmebarek N & Belounar L.</i>	
85. Sulfate Expansion of Lime-Stabilized Expansive Soil	673
<i>Celik, E. & Nalbantoglu, Z.</i>	
86. Predictions of friction pile group response using embedded piles in PLAXIS.....	679
<i>Sheil B. & McCabe B</i>	
87. Initial stress condition of saturated soil grounds.....	687
<i>A.S.Zhakulin, A.A.Zhakulina, D.O.Adamovich</i>	
88. Effect of steel slag used with sea water upon the strength of uzunciftlik clay	693
<i>Bilgen G., Kavak A. & Capar O.F.</i>	
89. Evaluation on grain size distribution of railway ballast with and without sands by image analyses.....	701
<i>Kumara, J.J., Ogiwara, K., Hoshi, S. & Hayano, K.</i>	
90. Numerical analysis of Sunshine Motorway Trial Embankment on soft clay deposit with and without PVD improvement.....	707
<i>Uysal, F., Yildiz, A., & Mekik, Z.</i>	
91. Bearing Capacity of Geosynthetic Reinforced Foundation Beds on Compressible Clay.....	715
<i>K. Rajyalakshmi., Madhira R. Madhav. & K. Ramu.</i>	
92. Theory and Application of Geothermal Energy.....	723
<i>Arslan U. & Huber H</i>	
93. Ground improvement to reduce the liquefaction potential around pile foundations.....	731
<i>Wehr, J. & Keil, J</i>	
94. Monitoring and numerical investigations of rigid inclusion reinforced concrete water tanks.....	739
<i>Okyay U.S & Briançon L.</i>	
95. Properties of Stabilized Clayey Soils by Liquid Ionic Stabilizer.....	745
<i>Arabani, M., Haghi, A.K., Hashemi, S., Karami, M., Nikookar, M. & Bahari, M.</i>	

96. Determination of Vertical Displacements behind the Excavation Support Systems.....	751
<i>Çetin , Z., Onur, M.İ., Tuncan, M., & Tuncan, A.</i>	
97. A new technique to predict the allowable bearing capacity for shallow foundations based on small-strain stiffness.....	757
<i>A.Hadad. & R. Amini Ahidashti</i>	
98. Investigation on the influence of water to soil	765
<i>Katzenbach, R., Bergmann, C.</i>	
99. Characterization of polyurethane-stabilized ballast.....	771
<i>Keene,A.K., Edil,T.B., Tinjum,J.M., & Brown,R. W.</i>	
100. Laboratory study on the molding techniques for QC/QA process of a Deep Mixing work.....	779
<i>Danisi C., Grisolia M., Leder E. & Marzano I.P.</i>	
101. Use of fly ash- lime mixtures in stabilization of a sand.....	787
<i>Akbulut N. & Çabalar, A.F.</i>	
102. Comparison of formulae and testing methods for shear strength of unsaturated soils.....	795
<i>Hassan Zehtab, K., Toker N.K. & Ahmadi Adli M.</i>	
103. 3D numerical modeling of a landslide in landfill site at Mila in Algeria.....	803
<i>Khelifa, T., Benmebarek,S.</i>	
104. Comparison of Safety Factors Obtained from Limit Equilibrium Methods and Finite Element Analyses.....	811
<i>Toker, N. K., Engin, V.</i>	
105. Verification of New Seismic Site Characterization System in Korean Historical Areas.....	819
<i>Kim, D.S., Park, H.J. & Lee, S.H.</i>	
106. Preliminary results from a small geotechnical centrifuge for consolidation tests.....	827
<i>Kayabali,K., Balci, M.C. & Başer, T.</i>	
107. High Geogrid Reinforced Walls in a Mountainous Seismic Region in Bulgaria.....	835
<i>Alexiew, D.</i>	
108. Oedometer and direct shear tests to the study of sands with various viscosity pore fluids	843
<i>Hasan, R.A. & Çabalar, A.F.</i>	
109. Improvement of engineering properties of soils by biopolymer additives.....	851
<i>Taytak, B., Pulat H.F. & Yukselen-Aksoy Y.</i>	
110. Application of Microorganisms for Improvement of Liquefiable Sands.....	857
<i>Khodadadi T., H. & Bilsel, H.</i>	
111. Investigating parameters affecting on buried flexible pipe behavior.....	865
<i>Akınay, E & Kılıç, H</i>
